Curriculum Vita

Licensure and Accreditation

- 2010-Current Licensed Clinical Psychologist- State of Illinois. License #071007979.
- 2010 Licensed Clinical Psychologist- State of Michigan. Lapsed.
- 2008-2011 Licensed Psychological Assistant- State of California. License #PSB 33913.
- Anticipated Application under review with the American Board of Professional Psychology (ABPP) for eligibility to sit for Board Certification in Clinical Neuropsychology.

Education

- 2008 Psy.D. in Clinical Psychology, Roosevelt University, Chicago, IL
Dissertation: *Alternate Wechsler Adult Intelligence Scale-Third Edition Scoring Methods in Traumatic Brain Injury: An Investigation of the General Ability Index and Reliable Components Analysis*. Chair: Edward Rossini, Ph.D.; Readers: Jeri Morris, Ph.D., ABPN, Joseph J. Ryan, Ph.D.
- 2003 M.A. in Clinical Psychology, Roosevelt University, Chicago IL
Master's Thesis: *Face Validity of the Depression, Anxiety, Mania, Somatic Concerns, and Thought Disturbance Scales of the Emotional Assessment System*, Chair: James P. Choca, PhD
- 2001 B.A. in Psychology, University of Illinois at Chicago, with honors.

Clinical Experience

- 2010-Current *Clinical Neuropsychologist, Neuropsychological Services, PC; Chicago, IL*
- Conduct outpatient neuropsychological assessments on adults with a variety of diagnoses including but not limited to: dementia, TBI, MS, ALS, MCI, stroke, psychiatric concerns, sports-related concussion, epilepsy, CNS tumors, pervasive developmental disorders, ADHD, and learning disabilities.
- 2010-Current *Clinical Neuropsychologist, Forensic Clinical Services, Circuit Court of Cook County; Chicago, IL*
- Perform court-ordered psychological and neuropsychological evaluations in relation to criminal cases in the process of adjudication in the Circuit Court of Cook County.
 - Psychological evaluations consisting of clinical interview, personality, and cognitive assessment to answer specific legal questions including,

but not limited to, fitness to stand trial, sanity at the time of the offense, and ability to understand Miranda rights.

- Neuropsychological evaluations consisting of clinical interview, personality, and cognitive assessment to answer specific legal questions including, but not limited to, fitness to stand trial, sanity at the time of the offense, and ability to understand Miranda rights.
- Write comprehensive reports addressing the specific legal question at hand. Provide clear opinions on the ultimate issue to a reasonable degree of psychological and scientific certainty.
- Consult with staff psychologists and psychiatrists regarding neuropsychological issues.
- Consult with State's Attorneys and Public and Private Defenders regarding opinions provided to the court.
- Provide testimony regarding opinions contained in comprehensive reports. Offer testimony in both contested and uncontested hearings.

2008-2010

*Postdoctoral Resident, Center for Neuropsychological Services,
Kaiser Permanente-Roseville; Chicago, IL*

- Two-year post-doctoral residency developed in accordance with the Houston Conference and APA Division 40 guidelines.
- Perform full neuropsychological assessments on 10-12 adult patients per month.
- Perform pre-surgical neuropsychological evaluations on candidates for Deep Brain Stimulator implantation for the treatment of movement disorders including Parkinson's disease and essential tremor.
- Perform 1-year and 5-year post-DBS implantation follow-up evaluations.
- Present pre-surgical neuropsychological results at bimonthly Kaiser Permanente North Valley Movement Disorders Clinic team meeting. Movement Disorder team is a multidisciplinary team consisting of neurosurgeons, neurologists, neuropsychologists, biomedical engineers, and nurse practitioners. Provide opinion on fitness to undergo DBS implantation based on results from the pre-surgical neuropsychological evaluation.
- Perform baseline neuropsychological testing for high school athletes as part of the Kaiser Permanente North Valley Concussion Management Program using the Immediate Post-Concussion Assessment and Cognitive Test (ImPACT) system.
- Perform post-concussion evaluations using both the ImPACT system and traditional neuropsychological tests to assist in return-to-play decisions for high school athletes.
- Perform memory disorder/dementia screenings for the Kaiser Permanente Dementia clinic. Conducted clinical interview, 3-4 hour neuropsychological battery, generated written report, and provided feedback to patients and families.
- Conduct outpatient neuropsychological assessments on adults and late-adolescents with a variety of diagnoses including but not limited to: dementia, TBI, MS, ALS, MCI, stroke, psychiatric concerns, sports-related concussion, epilepsy, CNS tumors, pervasive developmental disorders, ADHD, and learning disabilities.

- Perform monthly pediatric neuropsychological assessments on late adolescents (i.e., ages 15 and up).

2007-2008 *Predoxlor Intern, Adult Neuropsychology Program, Henry Ford Health System (APA accredited internship); Chicago, IL*

- Eight month rotation in clinical neuropsychology. Outpatient assessment of numerous clinical conditions such as dementia, TBI, MS, ALS, MCI, stroke, psychiatric concerns, sports-related concussion, and seizure disorder among others.
- Performed pre-surgical evaluations in Epilepsy Monitoring Unit and outpatient post-surgical evaluations.
- Provided occasional neuropsychological assessment in an inpatient rehabilitation setting.
- Performed full neuropsychological assessments on 10-12 patients per month.
- Conducted baseline neuropsychological testing for the Detroit Lions of the National Football League.
- Four month rotation in Henry Ford Hospital's Consultation and Liaison service. Conduct diagnostic clinical assessment of hospital inpatients across all units (i.e., ICU, Cardiology, Infectious Disease, etc.) with possible psychiatric concerns. Provide diagnostic conclusions and recommendations to multidisciplinary treatment teams. Coordinated inpatient psychiatric transfers as well.

2006-2007 *Extern, Adult Neuropsychology Program, University of Chicago; Chicago, IL*

- Assessed patients with various diagnoses including: hydrocephalus, epilepsy, CNS tumors, non-epileptic seizures, learning disabilities, ADHD, Alzheimer's disease, vascular dementia, FTD, DLB, MS, ALS, and TBI among others.

2005-2006 *Extern, Behavioral Health Services, Level 1 Trauma Center Emergency Room, Advocate Illinois Masonic Medical Center; Chicago, IL*

- Maintained caseload of 9-14 adult psychotherapy cases
- Participated in weekly crisis rotations in a Level 1 Trauma Center ER conducting psychiatric intake assessments with patients suffering from chronic and acute mental disturbances (i.e. manic episodes, psychosis, acute substance intoxication).
- Provided clinical recommendations to attending ER physician as well as ER support staff regarding admissions, treatment and diagnoses.
- Co-ordinate inpatient psychiatric admission or transfer to outside psychiatric facility.
- Responsible for answering crisis line phone calls, discovering identities of Jane/John Doe's brought into ER, and assisted in notifying families of a patient's death in the ER.

Work Experience

2006- 2007 *Neuropsychology Technician, Neuropsychological Services, PC, Chicago, IL*

2005-2006 *Psychology Graduate Admission Counselor, Roosevelt University, Chicago, IL*

2002-2006 *Therapeutic Assistant/Business Associate, Take Action, Inc., Chicago, IL*

2001-2003 *Business Associate, Hoover & Associates, Orland Park, IL*

Research Experience

- 2009 Levine, D., Jasinski, N., & Rohrer, S. (*In progress*) Assisted in database planning, maintaining confidentiality standards, and exploring future research. Also generated Kaiser Permanente Institutional Review Board application to create and maintain a neuropsychological database for pre- and post-surgical deep brain stimulation Parkinson's disease patients referred through the Kaiser Permanente North Valley Movement Disorders clinic.
- 2007 Podell, K., Merker, B., & Jasinski, N. (*In progress*). *The Dictionary of Neuropsychology*. Co-authoring several definitions for publication.
- 2007 Jasinski, N. Choca, J., & Ferrell, K. (2007, August). *Face validity of the Depression, Anxiety, Mania, Somatic Concerns, and Thought Disturbance scales of the Emotional Assessment System*. Poster presented at the 115th annual meeting of the American Psychological Association, San Francisco, California.
- 2007 Dumitrescu, C., Hanlon, B., & Jasinski, N., (2007, February). *Executive dysfunction in acute medical inpatients: Implications for functional outcome*. Poster presented at the 35th annual meeting of the International Neuropsychological Society, Portland, Oregon.
- 1997 Skitka, L. J., Mosier, K., & Burdick, M. D. (2000). Accountability and automation basis. *International Journal of Human-Computer Studies*, 52, 701-717. Research Assistant responsible for data collection and database management

Teaching Experience

- 2006 (Spring) *Graduate Student Instructor, Roosevelt University*
- Taught undergraduate course "Research Methods"

Additional Experience

- 2005-2006 Student Representative to the PsyD Program Executive Governance Committee.
- 2005 Attended workshop (2005): *Neuroanatomical Dissection: Human Brain and Spinal Cord*, Workshop at Marquette University.
